

5 DECEMBER 1985

1

MEMORANDUM FOR: All Officers, JMRTC

FROM:

Chief, JMRTC Task Force D

SUBJECT: Support to the Active Forces

1. SUMMARY: Task Force D's objective is to better match the JMRTC personnel resources (individual officers) with significant requirements for our assistance. In this regard, we have interviewed selected active military components with a view toward satisfying their requirements through year-round participation in Washington and two week ACDUTRA assignments. Sampled components

All said they were extremely eager to have our officers provide such assistance and they described specific tasks we could accomplish. Included is a questionnaire to help us quantify the personnel resources available in the JMRTC, and assess our enthusiasm to support the Active Forces.

2. (CONFIDENTIAL) SAMPLE ASSIGNMENTS:

The sampled components offered the following specific jobs for year-round (in Washington) and ACDUTRA assignments. They represent unfilled needs in MI Groups and unified/specified commands worldwide and CONUS based planning and support organizations. Similar requirements undoubtedly exist in support of Active Forces in other geographic areas.

SECRET

## 3. (SECRET) INTELLIGENCE COLLECTION SUPPORT:

Support to a theater MI Group (intelligence collector) can be accomplished as described below:

25X1 The JMRTC could provide continuous intelligence related support [REDACTED]

## I. Ongoing (Washington) Projects

[REDACTED]

25X1

## II. ACDUTRA (Two week, in-country) Projects

a. Operations Augmentation: Specialized collection management on specific cases. Gather all locally available information, draw conclusions and make recommendations for action.
